MNI Indicators also produces the renowned Chicago Business Barometer™, a key leading indicator of the US economy. MNI Indicators is part of Market News International, Inc., a leading provider of news and intelligence.

## Notes to Editors

**Production:** MNI Indicators, part of Market News International Inc.

**Release Date:** Last Wednesday of the month

**Bloomberg ticker:**

**Collection method:** Survey data is collected by phone each month from traders.

**Calculation method:** Respondents are asked, amongst other questions, their opinion on whether liquidity is looser or tighter compared with the previous month and also in the coming month.

E.g. Is Liquidity looser/Same/Tighter compared with a month ago/month ahead?

A diffusion indicator is then calculated by adding the percentage share of responses for tighter conditions to half the percentage of those respondents reporting no change.
