

## MNI: Ukrainian Strikes on Russia's Oil Infrastructure Tracker

By Lawrence Toye, Daniel Dawson (16/12/2025)

- **Russia's crude processing volumes rose by 180k b/d to 5.5m b/d** in week to Dec. 10, Bloomberg reported.
- Runs at **Novokuibyshevsk and Tuapse refineries** returned to near **pre-attack levels**.
- **Strike targets have also expanded** to Caspian Sea oil fields and **shadow-fleet tankers** in the Black Sea
- The tables show **reported Ukrainian attacks on Russian oil infrastructure since October**. Given the frequency of attempted strikes, the list may not be exhaustive.

### Major Russian Refineries Targeted by Ukraine

## Major Refineries

Date	Facility	Capacity	Operational Impact	Further Details
Nov-29	<b>Afipsky refinery</b> , Krasnodar  Operator: SAFMAR	6.25m mtpa (125k b/d)	<b>Operational impact unknown.</b>	Attacked Nov. 29, Sep. 26, and twice in August  Nov. 29 attack saw some technical equipment damaged (Reuters) but tanks were not affected (Interfax)
Dec-14	<b>Yaroslavl Refinery</b>  Operator: Slavneft-YANOS	15m mtpa (300k b/d)	<b>Operational Impact Unknown</b> from Dec. 14 attack  Dec. 12 strike resulted in a suspension of output at the plant. CDU-4, which accounts for a third of the plant's production capacity, was damaged, along with a loading rack (Reuters)	Attacked Dec. 14, Dec. 12, and end-September. Last reported as running at 200k b/d in May.
Dec-08	<b>Saratov Refinery</b> , Saratov  Operator: Rosneft	7m mtpa (140k b/d)	<b>Operational Impact Unknown</b> from Dec. 8 attack  Nov. 28 attack damaged the ELOU-AVT-6 primary oil purification unit. Primary crude oil processing completely suspended as of early December and operating rates below 50% of capacity (GSU Dec. 5)  Prior to Nov. 28 attack, the plant stopped processing crude since the Nov. 11 attack and was expected to remain offline until end Nov. (Reuters Nov. 14).	Refinery also targeted Nov. 28, Nov. 14, Nov. 11, Nov. 3, Oct. 16, Sep. 20, Sep. 16.  CDU-6 thought to be damaged by the Nov. 14 strikes (Reuters)  The Nov. 3 strike ignited a fire in the area of the ELOU AVT-6 oil refining units (desalting and de-watering unit), (GSU)

Dec-06	<b>Ryazan refinery</b> , Ryazan  Operator: Rosneft	13m mtpa (340k b/d)	<b>Crude processing suspended</b> following Nov. 15 attack and still offline as of Dec. 10 (Bloomberg).  Prior to Dec. 6 and Nov, 20 strikes, had been expected to be idle until start of Dec. (Reuters)	Refinery attacked nine times this year Most recent: Dec. 6, Nov. 20, Nov. 15, Oct. 23, Sep. 5, Aug. 2.  Oct. 23 strike took the 80k b/d CDU-4 offline with secondary unit shutdowns including a reformer, vacuum gasoil hydrotreater, and catalytic cracker (OilPrice.Com).
Dec-05	<b>Syzran</b> , Samara  Operator: Rosneft	8.5m mtpa (170k b/d)	<b>Refinery halted processing Dec. 5</b> and remained offline as of Dec. 10 after CDU-6 struck (Bloomberg) .  Repair work could last a month. (Reuters).	Refinery previously attacked Nov. 22, and Aug. 30, 24, and 13 (Kpler). The August strike temporarily ceased operations (RBC Ukraine)
Nov-30	<b>Slavyansk Refinery</b> , Krasnodar  Operator: Slavyansk ECO	5.2m mtpa (100k b/d)	<b>Operational impact unknown.</b>	Gas pipe damaged but no fire (Astra)  Also targeted Aug. 13 (Reuters)
Nov-27	<b>Novokuibyshevsk</b> , Samara  Operator: Rosneft	8.8m mtpa (170k b/d)	<b>Returned to pre-attack levels</b> in week to Dec. 10. (Bloomberg)	Also attacked on Nov. 16, Oct. 19, Oct 19, Aug. 2 (Kpler).  Oct. 19 strike disrupted 138k b/d CDU-11 and CDU-9. Aug. 2 attack caused a suspension in primary oil processing.
Nov-25	<b>Tuapse</b> , Tuapse Krasnodar Krai)  Operator: Rosneft	12m mtpa (240k b/d)	<b>Returned to pre-attack levels</b> in week to Dec. 10. (Bloomberg)  Refinery had resumed crude processing Nov. 21 with port also resuming exports (Reuters)	Nov. 25 attack claimed by General Staff of Ukraine  Previous attack on Nov. 3 when drones struck the loading facilities (Bloomberg)

Nov-19	<b>Ilsky</b> , Krasnodar Krai  Operator: KNGK	6.6m mtpa (130k b/d)	<b>Damage Unknown</b>	Nov. 19 attack was not announced by General Staff of Ukraine but by chief of Unmanned Systems Forces Robert Brovdi  Refinery has been the target of multiple attacks, with a previous attack in September. Refinery runs were 115k b/d as of Oct. 27
Nov-12	<b>Stavrolen chemical plant</b> , Stavropol Krai.  Operator: Lukoil	n/a	<b>Damage Unknown</b>	Stavrolen is one of Russia's main producers of polyethylene and polypropylene.  Also attacked Oct. 29.
Nov-11	<b>Orsknefteorgsintez (Orsk)</b> , Orenburg  Operator: FortelInvest	6m mtpa (120k b/d)	Refinery reduced runs following Nov. 11 attack. (Bloomberg Nov. 25). No further update  Originally expected to restart by Nov. 16. Already suspended crude processing Nov. 10 for maintenance; drone strike delayed repairs (Kommersant)	General Staff of Ukraine claimed that one of the primary CDUs were hit. Exilenova reported a Visbreaking unit was hit.  The refinery had also been attacked by a drone on Oct. 3 (Astra)
Nov-06	<b>Sterlitamak Petrochemical Plant</b> , Bashkortostan  Operator: Gazprom NefteKhim	n/a	<b>Operational Impact Unknown.</b>  Part of the water purification facility collapsed from previous Nov. 4 strike (Bashkortostan Governor)	The strike occurred on Nov. 6, according to Ukraine's Military Intelligence (HUR).
Nov-06	<b>Lukoil refinery, Volgograd</b>  Operator: Lukoil	15m mtpa (300k b/d)	Crude processing exceeding 220k b/d by late November (Bloomberg)  The refinery had already reduced runs for planned maintenance when it was attacked Nov. 6 (Bloomberg)	Also struck Oct. 15, Sep. 18, Aug. 12 (Kpler)  The units damaged by the Nov. 6 strike were reported to be the 67k b/d CDU-5 (Bloomberg) and the 11k mt/d hydrocracker (Reuters, Bloomberg).

Nov-04	<b>Nizhegorodnefteorgsintez</b> , Kstovo, Nizhny Novgorod  Operator: Lukoil	17m mtpa (340k b/d)	Lukoil confirmed that the operation of one of the processing units was temporarily suspended as of Nov. 4 (RIA). No further public update since.	Refinery also attacked Oct. 15 and Oct. 5.  L-24/300 hydrotreatment unit possibly damaged Oct. 15 (Militaryny)  Rectification column, responsible for primary oil processing damaged on Oct. 5 strike (Ukrainian Pravda)
Oct-15	<b>Bashneft Refining Complex</b> , Ufa, Bashkortostan  Operator: Rosneft	23.5m mtpa (472k b/d)	Ufimsky refinery increased runs to pre-attack levels by Nov. 12 (Bloomberg)  Runs at the Ufaneftekhimi refinery rose by more than 60% to pre-strike levels of 155k b/d by Nov. 4 (Bloomberg)	Reports of attacks on the refining complex Oct. 15 and Oct. 11 (Bloomberg)  Bashneft is a complex of three oil refineries: the Novoil, Ufimsky and Ufaneftekhimi refineries.
Oct-04	<b>Kirishi refinery (Kinef)</b> , Leningrad Oblast  Operator: Surgutneftegaz	20m mtpa (430k b/d)	Runs near pre-strike levels by Nov. 5 (Bloomberg)	Oct. 4 strike halted the 160k b/d CDU-6, (Reuters),  Also hit Sep. 14, which took a 150k b/d primary processing unit offline. (Bloomberg)

### Smaller Refineries

Date	Facility	Capacity	Operational Impact	Further Details
Dec-15	<b>Astrakhan Gas Processing Plant</b>  Operator: Gazprom	3.2m mtpa (60k b/d),	<b>Operational impact unknown.</b>	Plant processes condensates  Previously, the Astrakhan gas processing plant halted production of motor fuels on Sep. 22 after a fire caused by a drone attack. Prior to that, it had also been hit in early February.
Oct-29	<b>NS-Oil refinery</b> , Novospasskoye, Ulyanovsk	0.6m mtpa (12k b/d)	<b>Damage Unknown</b>	Plant produces gasoline, diesel, and fuel oil.

Oct-29	<b>Mariysk refinery</b> , Mari El Republic	1.3m mtpa (26k b/d)	<b>Damage Unknown</b>	Ukraine's General Staff reported explosions and a fire at the facility (Interfax Ukraine).  Refinery has two primary oil processing units and a vacuum fuel oil processing unit (Interfax Ukraine)
Oct-22	<b>Dagnotech</b> , Makhachkala, Dagestan	1m mtpa (20k b/d)	<b>Damage Unknown</b>	Kyiv's General Staff claimed the attack hit one of the crude refining units, but it was not independently verified.

## Oil Export Terminals

Date	Facility	Max Oil Loading	Operational Impact	Further Details
Dec-04	<b>Maktren-Nafta Terminal, Temryuk Port</b> , Krasnodar Krai	0.4m mtpa (LPG)	Port was damaged after a drone strike caused fires to break out on site (Krasnodar Krai Operational Headquarters)	Oil export terminal, receiving, storing, and shipping Russian petroleum products (Kyiv Independent.)
Nov-29	<b>CPC Terminal</b> , Novorossiysk	68 mtpa (1.37m b/d)	The drone attack damaged SPM-2, leaving just SPM-1 in operation. SPM-3 has been under maintenance since mid-Nov. Expected it to be operational by mid-Dec.  Delivery of two new mooring points to the Caspian Pipeline Consortium's Black Sea terminal has been advanced to January (Kazakhstan's Energy Minister)	Also attacked Nov. 24
Nov-14	<b>Sheskharis Terminal</b> , Novorossiysk	50m mtpa (1m b/d)	Nov. 14 attack caused a fire at a depot located at Transneft PJSC's Sheskharis oil terminal (Bloomberg)	

Nov-09	<b>Tuapse Port</b>	13 mtpa (240k b/d)	<p>Resumed oil product exports in week ending Nov. 23 after a two-week suspension following drone strike (Reuters)</p> <p>One of the harbour's piers damaged by Nov. 9 strike (Astra)</p>	Also attacked Nov. 2, causing a fire and damaging at least one ship.
--------	--------------------	--------------------	---	--

## Oil Fields

Date	Facility	Production Capacity	Operational Impact	Further Details
Dec-15	<b>Korchagin Field</b> , Caspian Sea Operator: Lukoil	1.2m mtpa (24k b/d)	Operations halted (Bloomberg)	Also attacked Dec. 11
Dec-11	<b>Filanovsky Field</b> , Caspian Sea Operator: Lukoil	6m mtpa (120k b/d)	Critical equipment was damaged and production suspended after the attack (Reuters)	

## Shadow Tankers

Date	Vessel Name	Attack Location	Flag	Cargo onboard	Further Details
Dec-10	<b>MT Kairos</b>	Black Sea	The Gambia	Unladen	Suezmax crude carrier
Dec-10	<b>MT Virat</b>	Black Sea	The Gambia	Unladen	Aframax crude carrier
Dec-10	<b>Dashan</b> (Disputed)	Black Sea	The Gambia	Unladen	<p>Ukraine did not claim attack</p> <p>Sanctioned by the EU, U.K., Can, Aus, for transporting Russian oil and disabling ID systems disabled.</p>
