

US LNG Weekly Recap - Week of 11/07/2025

Watching for: We are monitoring for developments at Golden Pass and Corpus Christi Stage 3, as both facilities appear to be ahead of schedule and targeting incremental gas to hit the market this winter. A cool down cargo remains detained for GOlden Pass, though slightly delayed to mid-December as it traverses around the Horn of Africa rather than through the Suez cannal. First LNG from Train 4 of CC Stage 3 should be in the next few weeks, following the approval to introduce feedgas.
